Individual Brainstorm

 **Question #1:** Describe your website subject in detail:

What do you already know about it? (50+ words)

The subject of my website is Climate Justice. It refers to the idea that everyone, regardless of their location or socio economic status, should have the right to a safe and healthy environment. Climate Justice promotes the rights and inclusion of all individuals in climate policy and decision-making.

What do you need to find out? (20+ words)

I need to find out how climate justice issues are being treated around the globe. I also need to find out about different organizations that are focusing on this social justice.

Who is impacted by this issue? (20+ words)

Climate Justice issues affect almost everyone, but it largely impacts marginalized and vulnerable communities, including low-income and indigenous communities, and communities in developing countries. These communities often have fewer resources to be aware and protect themselves from impacts of climate change.

 **Question #2:** Describe your proposed website in detail:

What is the purpose of your website? (30+ words)

The major purpose of my website is to provide free information about ongoing issues related to the environment and climate change to everyone. In addition, my website also aims to raise climate awareness, connect people through events, and enable them to take actions regarding the issues of climate justice.

Who is your intended user? (30+ words)

My website has various intended users. They are :

1. General Public who can use this website to access information about effects of climate change and take action to help and support people affected by this issue.
2. Students who can use the website to educate themselves about ongoing climate justice issues. The website will enable them to learn more and get involved on this topic.
3. Environmentalists and policy makers who can use this website to learn more about campaigns, events and initiatives to provide adequate protection and compensation to those who are vulnerable to impacts of climate change.

How will your user interact with your website? (30+ words)

Users may interact with my website by browsing and sharing free content, donating to organizations working on climate justice, and signing up for newsletters or alerts. Users may also connect with others and take action by registering for events and activities.

Wireframe

? When creating your wireframe, ask yourself:

- What about your social justice issue do you want shared on your website?
- How do you want your content and website structured?

? Copy/Paste a screenshot of your wireframe or a link to it below (if using a link, make sure it is publicly viewable).
